

## September 16 NCHNA Board & Committee Meeting Notes

Present: Michelle Kimihira, Jeanne Peterson, Bonnie Pasek, Melinda DeLanoy, Nancy Brainard

Prospective board member: Bryan Tillinghast

- 1.) NCHNA is in need of new board and committee members for upcoming fall elections. Suggestions were made and current board and committee members are to invite and follow up.
- 2.) 520 construction update was given by Nancy Brainard regarding Montlake to I-5 connection.
- 3.) Drivers continue to enter the street down the hill off 11<sup>th</sup> in front of the Seattle Prep parking garage despite the do not enter sign. There was a flurry of activity and a survey on Nextdoor regarding the subject with 80% of the responders considering it a problem – but no one agrees on the solution. It can never be made into a two-way street again. The City of Seattle vacated the small section that is one way at the top of the hill.

Rick and Ginger who live across the street from the Seattle Prep garage entrance attended the NCHNA board meeting to voice their concerns about this issue and ask that we as an organization take a stand and try to do something about it.

It was decided that we would write a letter to Prep asking for solutions.

We referred them to King County Neighborhood Mediation
